

# Why Crizal Avancé™ with Scotchgard™ Protector is Better

*Nothing can get in the way of the clarity of new Crizal Avancé with Scotchgard Protector - the lenses that combine the superior performance of Crizal® with the unmatched protection of Scotchgard Protector.*

## Features

- Crizal Avancé with Scotchgard Protector lenses have an improved topcoat, giving them the highest contact angle in the industry- 116°
- Anti-Static Technology
- Double-Sided Integrated, Diamond-Like Hardcoat
- Two-Sided Integrated AR Protection
- Patented Pad Control System™

## Benefits

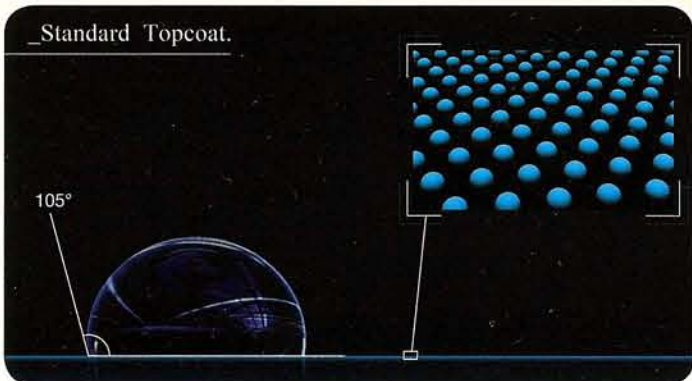

- Easiest lenses to clean, remaining that way for the life of the Rx
- Repel dust, dirt, fingerprints, smudges, oil and water
- The improved resistance to vision obstructions gives the wearer unparalleled visual clarity
- Less cleaning and more durable topcoat mean fewer scratches
- Reduced glare, reflections and eyestrain from sunlight, light bulbs and computer screens
- Lenses are easy to edge without slipping

## Permanent Ink Test

The advanced super-hydrophobic properties of Crizal Avancé with Scotchgard Protector lenses repel oil, water, smudges and even tough stains - like permanent ink.

## New High Surface Density (HSD) Process

Standard AR

Crizal Avancé with Scotchgard Protector

The HSD Process forces the molecules in the topcoat to be packed together very densely, giving strength and uniformity to the surface. This creates a higher surface contact angle and gives the topcoat the durability that prevents it from breaking down, even after 20,000 cleanings.

Nor dirt or smudge....

Ordinary lenses

Crizal No-Glare lenses

Nor scratches....

Ordinary lenses

Crizal No-Glare lenses

Or glare of night....

Ordinary lenses

Crizal No-Glare lenses

...Can keep you from the clearest vision possible.

With **Crizal**<sup>®</sup>

No-Glare lenses

**See**  
*Better*

Crizal No-Glare lenses mean safer, more comfortable nighttime driving by reducing glare from headlights, taillights and street lights. They also fight reflections from overhead lights.

**Look**  
*Better*

Crizal No-Glare lenses are so clean, clear and glare-free, they're virtually invisible to those around you. People see you and your eyes instead of your glasses.

**Feel**  
*Better*

Crizal No-Glare lenses mean fewer headaches and less eye fatigue caused by reflections from computer screens.
